The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

Dear Supervisors:

APPROVE AMENDMENT NUMBER 13
FOR AUTHORIZATION OF EXTENSION OF AGREEMENT NUMBER 71792
WITH NORMAN L. FOGEL FOR DATA PROCESSING CONSULTANT SERVICES
(ALL DISTRICTS) (3 VOTES)

CIO RECOMMENDATION: APPROVE (X) APPROVE WITH MODIFICATION ()

SUBJECT

This Board letter serves to execute Amendment Number 13 to Agreement Number 71792 that will extend the current Agreement for an additional period of performance and increases the contractor's hourly rate. The current Agreement with Norman L. Fogel (Contractor) will expire on March 31, 2009, and this additional extension period will enable the Los Angeles County Sheriff's Department (Department) to transition smoothly from the existing Computer Aided Dispatch (CAD) subsystem to a new CAD subsystem and/or to allow for the upgrade of existing CAD subsystem should the purchase of a new CAD subsystem not materialize in the near future.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and instruct the Chair of the Board to sign the attached Amendment Number 13 to Agreement Number 71792 with the Contractor to continue providing data processing consultant services for the Department's CAD subsystem of the Mobile Digital Communications System (MDCS). The proposed Amendment extends the Agreement for a period of two (2) years, effective April 1, 2009, and thereafter provides for an option to extend for three

A Tradition of Service

- (3) additional one-year periods and a six (6) month option, in any increment, for a total Amendment cost not to exceed \$660,000. The proposed Amendment increases the maximum Agreement amount from \$1,041,480 to \$1,701,480.
2. Authorize the Sheriff, or his designee, to execute Amendments to the Agreement to meet the needs of the Department if it is in the best interest of the County, sufficient funding is available, and the approval of the Chief Information Officer and County Counsel is obtained prior to execution, including the above extension provisions and the addition of new or revised standard County contract provisions adopted by your Board during the term of the Agreement.
 3. Approve an increase to the Contractor's hourly rate from \$75 to \$100, effective upon execution of Amendment Number 13.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of this action will allow the current Contractor to continue providing software maintenance and support for the CAD subsystem of the MDCS. The MDCS functions as the command and control communication system for the Department's field operations.

Implementation of Strategic Plan Goals

The services provided under this Agreement support the County's Strategic Plan, Goal 1, Service Excellence, and Goal 8, Public Safety, by ensuring the continued operation of the MDCS, which is the command and control communication system used by the Department.

FISCAL IMPACT/FINANCING

The Department has identified sufficient funding in its Fiscal Year 2008-09 adopted budget for this Amendment. Effective April 1, 2009, the maximum annual contract sum shall not exceed \$120,000 (1200 maximum hours at \$100 per hour). The Department will continue to allocate the funds required to continue these services throughout the duration of this Agreement. The maximum contract sum for this Amendment only, including all extensions, shall not exceed \$660,000. This Amendment increases the maximum Agreement amount from \$1,041,480 to \$1,701,480. This Amendment also increases the Contractor's all-inclusive hourly rate for services from \$75 per hour to \$100 per hour, effective upon execution of this Amendment. The Contractor has not had an increase in the hourly rate of compensation since 2004.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The MDCS is a computer-aided dispatch system that interfaces with vehicular-based mobile data terminals, the 65 channel UHF radio system, the emergency 9-1-1 telephone system, and with State and County law enforcement databases. The hardware configuration consists of a central host computer network using Hewlett Packard (HP) EXPAND connected with 22 Department station computers located throughout the County of Los Angeles. The system is unique and was custom designed to meet the Department's specific requirements.

CONTRACTING PROCESS

The Department released a Request For Information (RFI) on July 30, 2008, to determine if there were firms or individuals in addition to the current Contractor that could provide the required specialized technical services. The RFI was posted on the County's Bid Website and the Department's Website. It was also mailed to 15 vendors identified through previous solicitations. Norman L. Fogel was the only vendor that responded to the RFI.

Norman L. Fogel is in compliance with all Board, Chief Executive Office, and County Counsel requirements.

County Counsel has reviewed and approved this Amendment as to form. Also, the Chief Information Officer has reviewed and approved this Amendment.

Except as expressly provided in Amendment Number 13, all other provisions and conditions of the Agreement will remain the same and in full force and effect.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of these actions will ensure the continued operation of the Department's communications dispatch system to enable the field operations to perform legally mandated responsibilities.
